From the Principal's Desk..

It gives me immense pleasure to bring the edition of E- Magazine, which has given amagnificent arena to the students to canvass their aesthetic and creative skills in a delightful fabrication. The Class- Teachers have played a significant role in nurturing and inspiring the ideas and emotions of the students in a spontaneous sensible and constructive manner. It's an attempt to understand the psychological need of the learners in this crucial pandemic crisis and engaging them optimally to perform exquisite and indigenous creative task for a holistic development.

“Creativity is seeing the same thing, but thinking differently”
– As I remember a quote from Sri A P J Abdul Kalam. Children are equipped with creativity in an enormous capacity. Ideally they need a platform to express.

It’s a prodigious prospect to bring together the students’ ingenious and appealing work as a form of e-magazine. Nonetheless it is an iota of the endeavours shown by the students. We must thank Sri K Sankaraiah, Principal for having his ceaseless guidance and inspiration. The efforts and curiosity shown by the students, in bringing the e-magazine in place, are commendable.

The grace lies in painting the miniscule thoughts.

CLASS IX

MATHS

The real full form of mathematics

M-Miracle of nature

A-Art of arithmetic

T--tool of knowledge

H-habit of problem solving

E-Evaluation of civilization

M-magic of numbers

MOBILE PHONES

• Mobile phones are one of the most commonly used gadgets in today's world. Everyone from a child to an adult uses mobile phones these days. They help us in so many ways... Mobile phones indeed make our life but at what cost?!? They are indeed useful very and convenient easy are a blessing only till we use them correctly. As when we use them for more than a fixed time, they become harmful for us.

* Uses of Mobile phones :

Mobile phones were used in our every day life. for making calls, messages, videos, photos, edits, playing online Lideo game online classes etc. Now in this covid-19 pandemic Mobile phones are very useful for ordering medicines and grocery and for meeting and online dasta etc.

Disadvantages of Mobile phones -

→ Mobile phone screens can damage our eye. → Over heating of mobile phone → They release harmful radiation.

can make an explosion!

LEARNING FROM HOME

Kids are getting more bored by the day. We wish we could go back to school see our friends. But some of us are also really scared about getting the coronavirus, and we don't want our friends and family to get it either. Coming to the point of learning from home programme during the break we used to attend classes for 3 hours and the classes will be held daily. Some are having fun with their parents and their brothers and sisters, but most are missing their teachers, their friends and their normal lives. We can't understand what teachers are saying because sometimes we have network issues. We can't concentrate on our studies through online classes. Therefore I think learning from home is a bit hard for students who can't get what teachers say!

YOGA

Yoga can help you in innumerable ways, as it empowers your body, mind and soul to fight the stress and everyday problems of life. Modern uncontrolled lifestyle has led our generation to health disorders and emotional distress. A bad lifestyle and absence of self-awareness could lead to destructive habits and a pessimistic vision of life. To cleanse your body and spirit you should find out the right kind of Yoga for yourself and practice them regularly for best results. Every Yoga posture has some exclusive benefits for your body and soul. It helps you control your mind. Ayurveda, the ancient medical science evolved in India, is the counterpart of Yoga. This clearly indicates that like Ayurveda, Yoga also has medicinal value.

TRUE MEANING OF INDEPENDENCE

My Glorious India,
The Land of various religion and ethnicity
We live together peacefully.
Greenery and Diversity.
Seen here is overwhelming.
Making India Proud is our main objective,
Which can only be fulfilled,
With the help of education & values
It clears voids of doubts,
Making us slow where we are going.
Not only education but other skills
The marmers, etiquettes & non-verbal
Which tells all the unwanted things.
Teaching & making everyone, literate
Is the only option that is left
To MAKE INDIA PROUD AGAIN.
